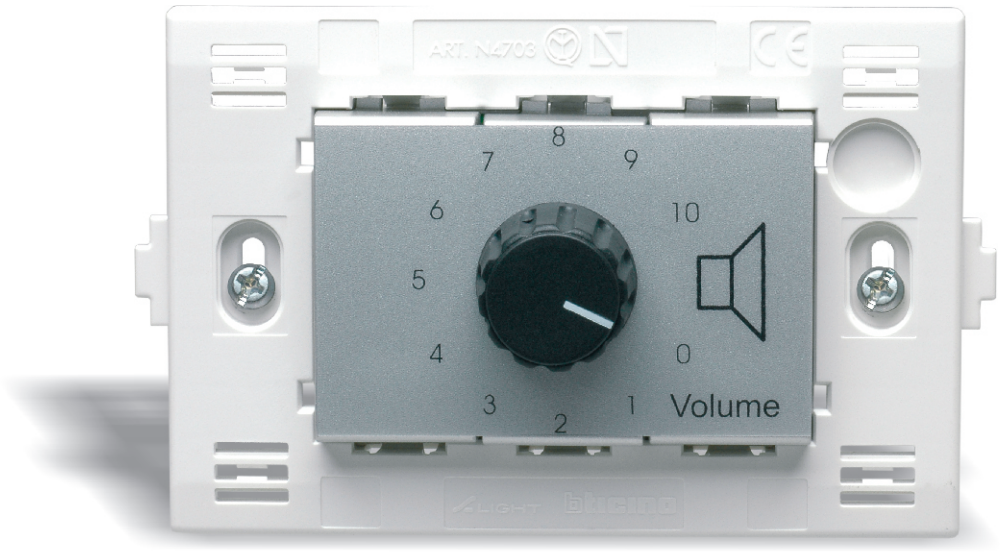
VOLUME CONTROL



The APart TNS-VOL100 is a 100 Volt volume control that can handle up to 100 watt of power.

It is very durable due to the step by step attenuation in 11 steps + zero position. The volume control is equipped with a 24V priority relais. This way a microphone call will always come through at maximum volume, no matter what position the volume control is in.

The TNS-VOL100 is build on a 3 module bTicino chassis of the Light Tech series.

The unit is supplied with the 3 module frame, without the cover plate.

TECHNICAL SPECIFICATIONS

Type	bTicino Light Tech
Handling power	100 watt
Voltage	100 Volt
24V priority	Yes
Attenuation steps	11 + "0"
Build-in box	T-3MODINW (for brick walls) T-3MODINP (for hollow walls)
Dimensions (H x W x D)	70 x 115 x 70 mm
Weight	0.29 Kg
colour	Silver
